

ZABELIN DMITRO

FULL STACK JAVASCRIPT DEVELOPER

Here's some information about me:

I started my career in the IT industry over two years ago. I was involved in developing web pages for various businesses on a freelance basis. Over the last year, I have enhanced my skills in full-stack development with a focus on JavaScript (**ES6+**, **React JS**, and **Node JS**). One of my primary goals is to become a sought-after specialist in JavaScript development.
